Ex-Senator Henry G. Davis, who wa to-day appointed a delegate to the Congress of American Nations, was seen by gress of American Nations, was seen by an Associated Press reporter. He thinks it would be bad taste in him, when not yet officially informed of his appointment, to say whether he will serve or not. Mr. Davis has always, as shown by his vote in the Senate, believed that the United States could well afford to be liberal in any movement which would divert to the United States more of the South American trade. Now the balance of the trade is hopelessly against us in a ratio of about four to one. He thinks that rough cotton goods, provisions, manufactured stuffs, agricultural implements and high class mechanical devices used in the arts, South America should get from us, and that our commodities, instead of going to England to be reshipped to our sister continent should go direct. The \$125,000 appropriation of Congress will be spent in showing the visiting delegates our resources, and this the ex-Senator believes will be conductive to good results. He intends making a thorough study of all matters pertaining to the interests in He intends making a thorough study of all matters pertaining to the interests in this convention, hence it would seem likely that he will accept.

Besides being a prominent mer-chant, he is thoroughly conversant with the Spanish language. His knowledge the Spanish language. His knowledge of Spanish will be useful in the coming convention, and this was one of the rea sons for his appointment: As it stands now the United States will be repre now the United States Will be repre-sented by four Democrats and six Re-publicans, as provided by the act estab-lishing the representation.

of life for him has passed. There remain but a few hours more of life. He is calm possessed and at times jovial. A reporter called to see him and was admitted to his cell. Everything was neat, flowers and fruit were on the table and his old indifference of manner was apparent. He told the reporter that he had nothing at all to say to the press. They had enlarged upon what he had said and he proposed to say nothing further to them.

At 11 o'cleck to-night the condemned man was bathed and retired to rest. At 7 he will breakfast, and at 8 Rev. Miller will begin the religious services. Immediately thereafter the death warrant will be read. Then the procession to the gallows will form, and the drop will fall between 9 and 10 o'clock. About the jail there is an air of painful expectancy. There is no hope of a reprieve and all are prepared for the closing scenes of this most terrible affair. The remains will be at once taken to the readence of Alonso Garlitz. The interment will be in Rose Hill cemetery on Sunday between 2 and 3 p. m.

Resolved, That we, as Republicans, pledge ourselves not to support any one for office, either National, State, or City, who is in favor of the present odiouscivil service, or its application in the distribution of public patronage whereby the majority of appointments are awarded to young men fresh from schools and colleges while active, intelligent, educated and deserving men of our own party are barred out on account of age, or have failed to answer foolish questions not pertinent to the service in which they are seeking employment. We believe that the present civil service law is a relic of European governments, is injurious to party success and not at is injurious to party success and not at all appropriate to a Republican form of government, and therefore should be repealed.

Only Woodcuff will be Tried Separately it

All the defen-dants then took exception to the ruling of the court refusing them separate trials, and the Judge granted twenty days in which to file bills of exception. Kerr's playing at all times was the hardest hitting ever seen in America, and his judgment was unerring. He smashed and drove hard down the side lines and at other times would make short play just over the net impossible. In serving he used mostly a forebanded cpt service with terrific force from over hand. Pettit did not seem to play in his usual form.
